Statement of Program

The “Challenge” Confidence Course program is a part of the larger field of adventure education. It will motivate people to venture out into unfamiliar, challenging territories of life experiences. The program has three basic goals:

- To increase the individual's level of self-confidence.
- To help participants learn to function in a group setting in a meaningful and productive way.
- To instill a feeling of fun into this challenging adventure.

The course involves each party in activities centered on a series of components or structures made with rope, steel cable and wood. Each presents a new challenge. They will walk and swing on ropes, jump a reasonable distance, support falling group members, participate as a climbing aid, and have close physical contact with other group members. Some of the components are at ground level; some are about **35 feet**

high on poles (at Cross Point). If rappelling or climbing, the tower is **50 feet high** (at Cross Point). On the high components, rappelling, and climbing, each person wears safety equipment consisting of a seat harness, a safety line and helmet. Reasonable precaution to protect the participants is taken. However, unforeseen circumstances may occur for which the personnel of the campsite cannot be held responsible. Because of these potential dangers each participant must recognize the importance of following the leader's instructions. Safety rules and procedures will be obeyed. Appropriate individual conduct is expected. **NO ONE IS ALLOWED ON THE COURSE WITHOUT SUPERVISION.**

Participation in the “Challenge” requires physical well being and mental alertness. Report on the consent form any condition that may restrict participation.
