Being thankful

I wonder what is on your list to be thankful for? My list goes like this. I'm thankful for:

1. Bringing the refugee ministry in Ghana to a completion
2. The safe return of the Liberian refugees to their home country after fifteen years of being in exile
3. For my brother Paye J. Legay's surviving a deadly fever which has been claiming thousands of lives in Liberia known as Lassa fever two month ago
4. We are thankful to God for the financial support and commitment of our supporters like you. The refugee ministry in Ghana couldn't have been possible without your involvement.

In essence we're continuing the mission work to Liberia. I have been assigned as principal to Ganta mission school in the north, where most of the refugee's children and family have returned. **Ganta Mission School** is an elementary through senior high level school and a vocational training school. It is part of a complex which includes a hospital and nursing

school and leprosy and tuberculosis rehabilitation centers in northeast in Liberia. It was established in 1926 by two missionaries, Dr. George Harley and his wife Winifred. The school and the hospital serve a population of around 450,000 in Liberia and neighboring countries. Most buildings were damaged by the civil war in 1990. The general Board of Global Ministries has renovated some of the buildings. In order to get the school in full operation, the cafeteria and the dorms for both girls and boys still need to be renovated.

Kiki and I will be leaving for Liberia in February 2009; we ask that you keep us in your prayers as we under take this new assignment to Liberia. Our address after February 2009,
Rev. Priscilla Legay-Jaiah
Ganta Mission School
Liberia Annual Conference/ UMC
P.O. Box 10-1010
Monrovia, Liberia

Time of giving, donations to the children of Liberia

This is the season to give and to be thankful. We are appealing to add this mission to your list for November and December. This new assignment it is a great challenge financially and emotionally. The need of the country is great, as they continue to rebuild roads, electricity, water, the health care system and etc. The government is not able to fully rebuild all of the schools in the country; therefore the church's schools are the only hope for parents

to provide quality education for their children now. Therefore, we are inviting you our partners and friends to join us in this mission to bring the Good news through helping to provide the opportunities for education, good health to the children, and training skills to the women of Liberia.

We as people of God fulfill the great commission:

“Go and make disciples to the world”

Therefore we are appealing to you to make donations

Priority Items for the 2008-2009 Shipment
